Notable quotes:

"To make progress, we don't only need a system, we need a community. The power of association and who you're hanging out with either keeps you where you're at or helps you get to where you're going." – Carey Conley

"Without faith, I don't know how we would have survived any of what's happened. It has allowed me to let go of many things that I've tried to control, so I'm much easier on myself now." – Carey Conley

"I'm very rooted in my vision, but the path - how we get there - is going to change." – Carey Conley

"If you don't have a vision that you want like air to breathe, the walls that you face and the personal growth you have to go through will stop you. You've gotta have that vision of something that you're willing to make those efforts for." – Carey Conley

3 Pearls of Wisdom:

1. Don't wait to write the vision until you have the 'how' first - it doesn't work that way.
2. Do not leave anything out of the vision that you think you can't possibly see happening because of where you are in your life now.
3. Get yourself in a community of people that are working through the same things you are.
